

Is she or isn't she?

Those seeking a new look without altering their own hair will be delighted with "Vogue," one of many stylish wigs available at The Last Tangle. This heat resistant synthetic wig can be cut and styled to personal preference, and returns to its original shape after washing, much like human hair. The salon also carries human hair wigs, which can be cut, coloured and styled to taste. The Last Tangle offers special fittings in a private wig room, where clients can choose from a wide in-house selection or custom order via catalogue. Whether satisfying your inner diva or for health related reasons, a high quality wig can offer the style you're seeking.
